

# 21st CENTURY SOCIALISM AND EDUCATION:

## GLOBAL ALTERNATIVES TO PATRIARCHY, RACIAL CAPITALISM, MILITARISM, AND CLIMATE CHANGE

THEMATIC TRACK

This thematic track discusses the necessity for new-century alternative education and development. We utilize socialism to draw attention to capitalism's links to patriarchy, racism, militarism, and ecological crises. "Socialism" and "21st-century socialism" are not well-defined, but we utilize them to expand participatory praxis in all sectors of social life, including the state, economics, workplace, social and cultural spheres, media, technology, and, most importantly for CIES, the education system.
